

# MY Memorial trip of uttarakhand

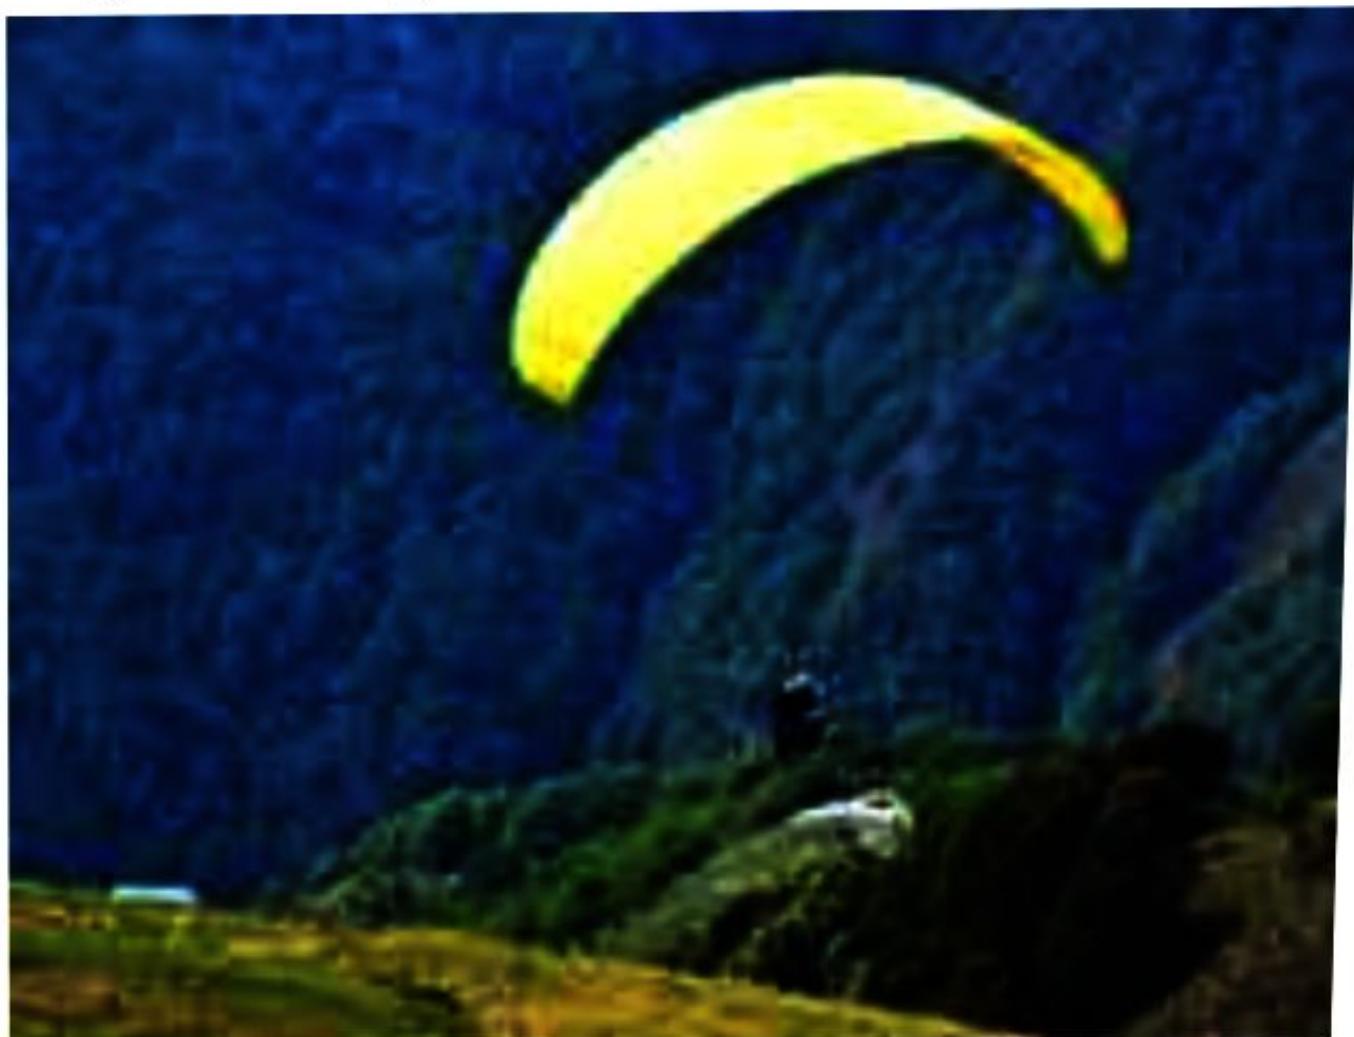

March 26, 2021

After my 10th std examination i planned for travel out of town ,so i decided to go on a trip of Uttarakhand . I started my preparation for a trip.

It was like a mountains were calling and I must go . Firstly I decided to go rishikesh, as there was a peace and best thing was the change in the climate .

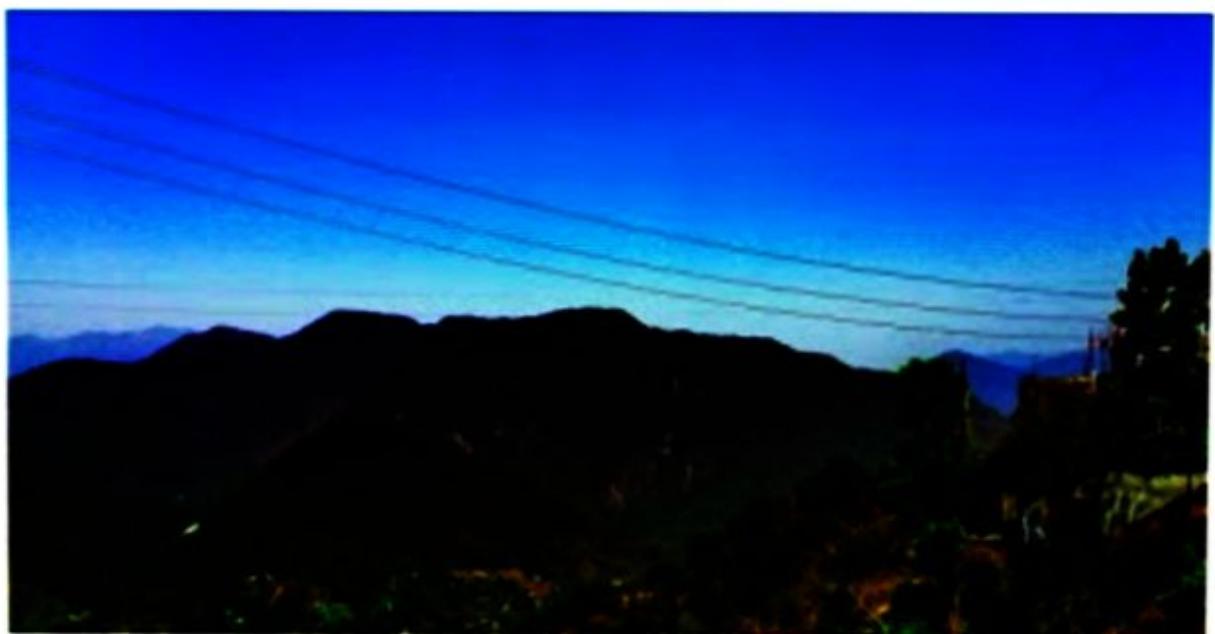

The best thing in Uttarakhand is adventurous things like paragliding ,bunjee jumping, water rafting and hiking or etc.

The one more best thing was the solitude and calmness of the place . Which gives the positive attitude to achieve anything in our life . the sound of the birds , water falling high mountains given me the so much relaxation.

The whole uttarakhand was covered with mountains .

I was able to see the mountains while travelling in the cab from 8 to 10 km.  
So overall it was the best memorial trip for me.
